Mr. Russell D. Korbe
Discovery Producer Services, LLC
Larose Gas Processing Plant
2800 Post Oak Blvd. Level 7
Houston, TX 77056

RE: Draft Major Modification of Louisiana Pollutant Discharge Elimination System (LPDES) permit LA0103039, effective on May 1, 2005 for Discovery Producer Services, LLC's Larose Gas Processing Plant located at 1474 Highway 24, approximately 1.8 miles west of Larose on the south side of Highway 24, in Lafourche Parish.

Dear Mr. Korbe:

The Department of Environmental Quality proposes to modify an existing LPDES permit with the effluent limitations, monitoring requirements, and special conditions listed in the attached DRAFT MODIFIED PERMIT. Upon the effective date of the FINAL MODIFIED PERMIT, the FINAL MODIFIED PERMIT portions shall replace the corresponding portions of the previously effective State (LPDES) permit.

The draft modification(s) of the current LPDES permit include:

1. Outfall 001 - change the outfall description to reflect the deletion of the discharge of firewater system test wastewater.
2. Outfalls 003 - newly designated outfall for the discharge of firewater from the west side of the facility.

Attached are the draft revisions to the Effluent Limitations pages (pages 2 and 5a of 6, Part I) for Outfalls 001 and 003 and the modified Title Page for the requested modifications. Please note that this is a DRAFT MODIFICATION only. Authorization to change your discharge will be granted only upon the receipt of an approved modification from this Office. All other conditions of the permit LA0103039 shall continue unchanged and remain valid until the expiration date of the permit. In accordance with LAC 33:IX.3105.B.2, only those permit limitations and conditions pertaining to the draft modification(s) are open for public comment.

Discovery Producer Services, LLC
Draft Modification LA0103039
Page 2

This Office will publish a public notice one time in a local newspaper of general circulation and the Office of Environmental Services Public Notice Mailing List. A copy of the public notice containing the specific requirements for commenting to this draft permit action will be sent under separate cover at the time the public notice is arranged. In accordance with LAC 33:IX.6521.A, the applicant shall receive and is responsible for paying the invoice from the above mentioned newspaper. LAC 33:IX.6521.A states: "...the costs of publication shall be borne by the applicant."

The invoice, fee rating worksheet, and a copy of the fee regulations will be sent under a separate cover letter as applicable. Please note that a copy of the fee rating worksheet is also attached to this draft permit. A copy of the entire Louisiana Water Quality Regulations may be obtained from the DEQ Office of Environmental Assessment, Post Office Box 4314, Baton Rouge, Louisiana 70821-4314, (225) 219-3236.

Pursuant to LAC 33:IX.1309.I, LAC 33:IX.6509.A.1 and LAC 33:I.1701, you must pay any outstanding fees to the Department. Therefore, you are encouraged to verify the facility's fee status by contacting LDEQ's Office of Management and Finance, Financial Services Division (225) 219-3863. Failure to pay in the manner and time prescribed could result in applicable enforcement actions as prescribed in the Environmental Quality Act, including, but not limited to revocation or suspension of the applicable permit, and/or assessment of a civil penalty against you.

Should you have any questions concerning any part of this draft modification, please feel free to contact either Elizabeth Johnson by telephone at (225) 219-3093 or Scott Guilliams by telephone at (225) 219-3072 or by letter to the Office of Environmental Services at the address on the preceding page. To ensure that all correspondence regarding this facility is properly filed into the Department's Electronic Document Management System, you must reference your Agency Interest (AI) number 27399 and LPDES permit number LA0103039 on all future correspondence to this Department, including Discharge Monitoring Reports.

Sincerely,

Jesse Chang

PERMIT NUMBER
LA0103039
AI No.: 27399

OFFICE OF ENVIRONMENTAL SERVICES
Water Discharge Permit

Pursuant to the Clean Water Act, as amended (33 U.S.C. 1251 et seq.), and the Louisiana Environmental Quality Act, as amended (La. R. S. 30:2001 et seq.), rules and regulations effective or promulgated under the authority of said Acts, and in reliance on statements and representations heretofore made in the application, a Louisiana Pollutant Discharge Elimination System permit is issued authorizing

Discovery Producer Services LLC
 Larose Gas Processing Plant
 1474 Highway 24
 Larose, LA 70373

Type Facility: Natural Gas Processing Plant

Location: 1474 Highway 24, approximately 1.8 miles west of Larose on the south side of Highway 24, in Lafourche Parish

Receiving Waters: Grand Bayou Blue (120606) via Outfalls 001 and 004
 Bayou Manuel (120604) via Outfall 002
 Grand Bayou Blue (120604) via Outfall 003

to discharge in accordance with effluent limitations, monitoring requirements, and other conditions set forth in Parts I, II, III attached hereto.

This permit and the authorization to discharge were effective on May 1, 2005 and shall expire five (5) years from the original effective date of the permit.

This permit was not previously modified.

This modification shall become effective on _____

Issued on _____

 Assistant Secretary

DRAFT

PART I
 Draft Modified Page 2 of 6
 Permit No. LA0103039
 AI No. 27399

EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

During the period beginning the effective date and lasting through the expiration date the permittee is authorized to discharge from:

Outfall 001 – Once-through non-contact cooling water, stormwater, and previously monitored effluents from Internal Outfalls 101 and 201.

This discharge shall be limited and monitored by the permittee as specified below:

EFFLUENT CHARACTERISTICS OUTFALL 001	STORET CODE	DISCHARGE LIMITATIONS Units (Specify)	MONITORING REQUIREMENTS ^(*)	
		DAILY MAXIMUM	MEASUREMENT FREQUENCY	SAMPLE TYPE
Flow (MGD)	50050	Report	1/ month	Estimate
TOC	00680	50 mg/L	1/ month	Grab
Oil and Grease	03852	15 mg/L	1/ month	Grab
Temperature	00010	Report ^(*)	1/ month	Grab
pH	00400	6.0 - 9.0 s.u. ^(*) (Min - Max)	1/ month	Grab

The analytical method used must be capable of detecting the limiting concentration.

There shall be no visible sheen or stains attributable to this discharge in the drainage area downstream from the permitted outfall.

There shall be no discharge of floating solids or visible foam in other than trace amounts.

The unit for flow, MGD, is million gallons per day.

Samples taken in compliance with the monitoring requirements specified above shall be taken at the following location:

Outfall 001 - at the point of discharge from the southwest corner of the facility prior to mixing with other waters.

FOOTNOTES

- (*) When discharging.
- (*) Instantaneous maximum to be analyzed immediately. Future water quality studies may require a temperature limitation for once-through non-contact cooling water. If such a limitation were imposed, the permittee would be required to reduce the temperature of the effluent prior to discharge.
- (*) The permittee shall report on the Discharge Monitoring Reports both the minimum and maximum instantaneous pH values measured.

 Permit No. LA0103039
 AI No. 27399

EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS (continued)

During the period beginning the effective date and lasting through the expiration date the permittee is authorized to discharge from:

Outfall 003 - Intermittent discharge of firewater from the west side of the facility into Grand Bayou Blue.

This discharge shall be limited and monitored by the permittee as specified below:

EFFLUENT CHARACTERISTICS OUTFALL 004	STORET CODE	DISCHARGE LIMITATIONS Units (Specify)	MONITORING REQUIREMENTS ^(*)	
		DAILY MAXIMUM	MEASUREMENT FREQUENCY	SAMPLE TYPE
Flow (MGD)	50050	Report	1/quarter	Estimate
TOC	00680	50 mg/L	1/quarter	Grab
Oil and Grease	03582	15 mg/L	1/quarter	Grab
pH	00400	6.0 - 9.0 s.u. ^(**) (Min - Max)	1/quarter	Grab

The analytical method used must be capable of detecting the limiting concentration.

There shall be no visible sheen or stains attributable to this discharge in the drainage area downstream from the permitted outfall.

There shall be no discharge of floating solids or visible foam in other than trace amounts.

The unit for flow, MGD, is million gallons per day.

Samples taken in compliance with the monitoring requirements specified above shall be taken at the following location:

Outfall 003 - at the point of discharge from the west side of the facility prior to mixing with other waters.

FOOTNOTES

(*) When discharging.

(**) The permittee shall report on the Discharge Monitoring Reports both the minimum and maximum instantaneous pH values measured.
